Vail Resorts Echo, the Company's social responsibility and environmental stewardship program, enables us to preserve and care for our communities and the spectacular natural environment that surrounds our resorts. It's a philosophical approach to how we operate our business, being continually aware of how our decisions and actions resonate with our stakeholders. Echo encompasses three core efforts - charitable giving, volunteerism and environmental stewardship. It is our hope that Echo continues to reverberate positively in the places where we live, work and play for generations to come.
